To Whom It May Concern:

During the last three weeks your company installed screening for my back porch patio. This letter is to compliment your company's procedures and completion of this project.

The initial contact made by Mr. Tony Caterina to the final completion by Jeremy Winters was exemplary. I was kept informed, questions were answered, and the work proceeded in an efficient and sequential manner.

I would be happy to recommend your company to anyone who would be interested. I hope next year, I will be able to possibly install skylights. Thank you.

Sincerely,

Barbara Jean Rupp
